## A CAPE COLORING BOOK

CAPE is proud to present SPACES, a coloring book featuring artwork by CAPE teaching artists.

At the heart of CAPE's work is the investigation, alteration, and creation of spaces that encourage curiosity, collaboration, growth, and expression for CAPE students, families, educators, and community members.

The following artworks come from a group of professional Teaching Artists who are respected in classrooms and galleries alike for their unique visions of art, teaching, and life. These artists were invited to consider the theme of SPACES- physical or conceptual- and to create black and white work that serves as a jumping off point for others' imaginations and creativity.

We invite you to make this art your own and to keep it, share it, question it, or be inspired by it to create new spaces in the worlds you inhabit- or would like to inhabit- every day.

If you'd like to share your finished coloring book pages online, please tag them with #CAPEspaces. We can't wait to see what you create!

**A digital version of this coloring book can be downloaded for printing and sharing at [www.CAPEchicago.org/coloring-book](http://www.CAPEchicago.org/coloring-book)**

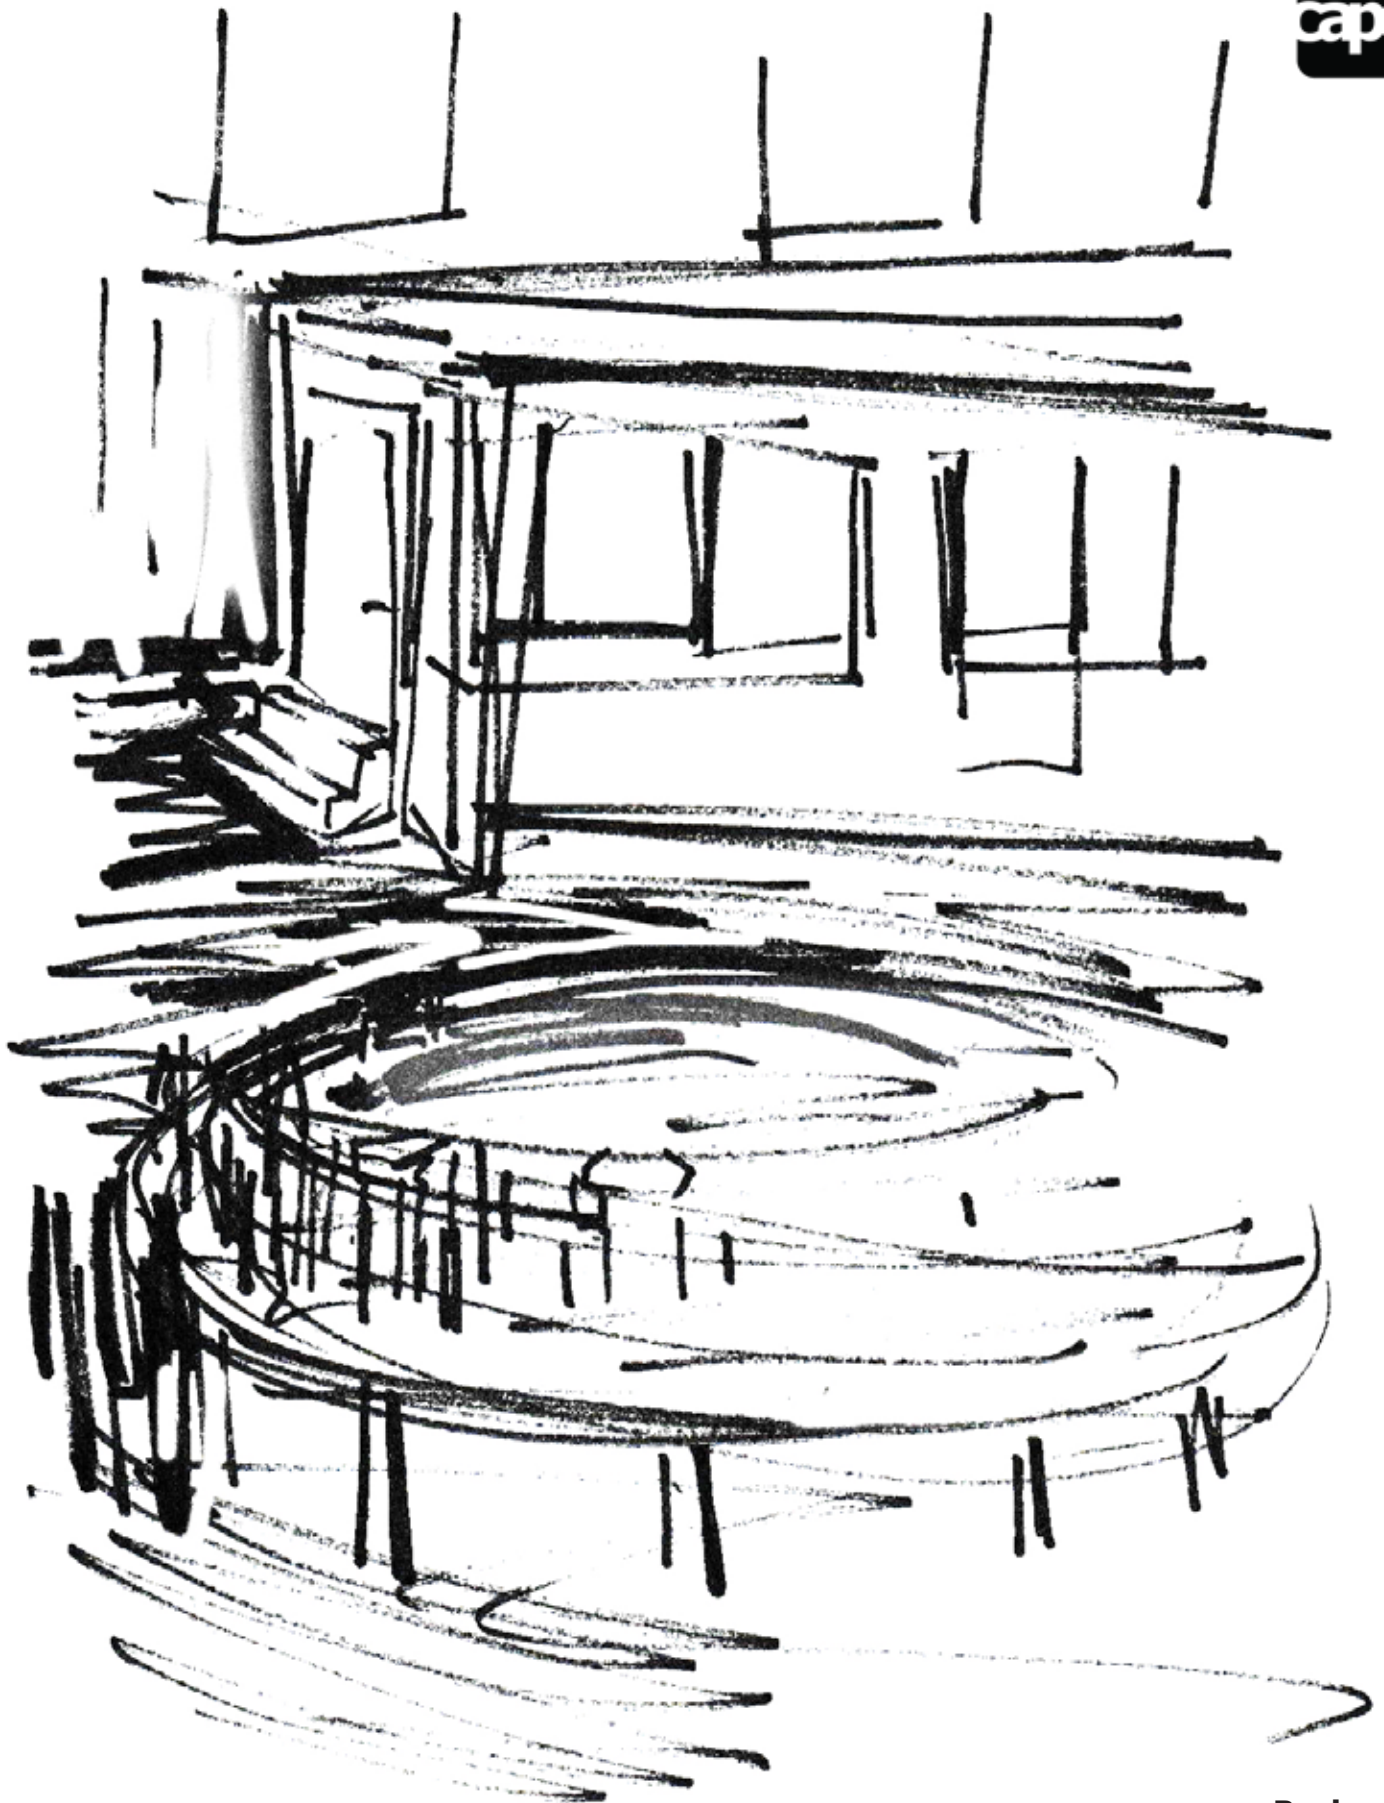

## Noelle Garcia

Noelle Garcia is an artist and educator working in the Chicago area.

## OUR MISSION

CAPE increases students' academic success, critical thinking, and creativity through research-based, arts-driven education.

## OUR WORK

CAPE engages students, inspires teachers, and demonstrates impact by bringing visual, digital, performing, and community arts into classrooms in low-income, high-needs public schools across Chicago.

## OUR ORGANIZATION

CAPE's service to the community includes:

- In-school and after-school programs for K-12 students and families
- Professional development for educators and teaching artists
- Long-term research on the impacts of art on students and teachers
- Public art exhibitions to showcase creative learning and artistic research

## KEEP UP WITH CAPE

Follow us in our digital spaces to stay in the loop on upcoming exhibitions, hands-on workshops, research presentations, and other special events!
