

The Problem

Due to internal errors the Illinois State Board of Education (ISBE) has overspent its 21st CLCC funds beyond the funding that the federal government provides. This means ISBE is not able to cover all of its current contracts.

There is a cohort that is expiring on 6/30/23 that serves almost 12,000 youth (funded at \$11,859,536) that will completely lose funding.

There is no other state, federal, or private funding source large enough to fill this gap.

WHO WILL BE IMPACTED?
